Address: Minsk, Belarus

About me:

I have successfully completed two training courses "Software Testing". At the moment I am doing a trainee at Zborka-startup laboratory. I aim to develop in the field of testing in the next few years, constantly improve her skills and improve herself. I am also a responsible and attentive to details employee. I find a common language with people of different ages. I can and do like to work in a team. I learn easily and quickly, I take the initiative.

Trainee:

"Zborka" - august 2021 - present

Software Testing Engineer : I work on three projects - web application and mobile application (competitor analysis (to help BA); user-story acceptance criteria; test documentation (preparation of a test plan, checklists, test cases, bug reports); manual and automated (Katalon Recorder, Postman, Jmeter) testing, functional and non-functional testing.

Courses:

- Academy Belhard (2021)
Software Testing . Advanced level
- Academy Belhard (2021)
Manual Software Testing

Work experience:

LLC "ALB-impeks" - may 2021 - october 2021
Manager

ALC "Collection" - mart 2013 - february 2021
Office Manager. Client Manager

Education:

Shirokov's Institute of Contemporary Knowledge -
2001-2007

Psychology, Psychologist social worker
